

BUSINESS HEALTH REVIEW

Board Meeting Presentation

Q4 2025 | Beverage Manufacturing Division

AGENDA

01

Executive Overview

Revenue, profit & key financial KPIs

02

Sales Performance

Categories, channels, regions & growth

03

Inventory & Supply Chain

Stock health, supplier reliability, lead times

04

Production & Quality

Efficiency, yield, compliance & quality metrics

05

Marketing ROI

Campaign effectiveness & conversion analytics

06

ESG & Sustainability

Carbon reduction, renewable energy, eco-packaging

07

Forecast Accuracy

Demand planning precision by category & region

08

Strategic Recommendations

Data-driven priorities for next quarter

AT A GLANCE

01 EXECUTIVE OVERVIEW

Financial Performance & Key Business Indicators

\$1.08B

Annual Revenue
(2025)

↑ +55% vs 2020

51.0%

Gross Margin

↑ +350 bps

29%

EBITDA Margin

↑ Stable

576K

Units Shipped
(2025)

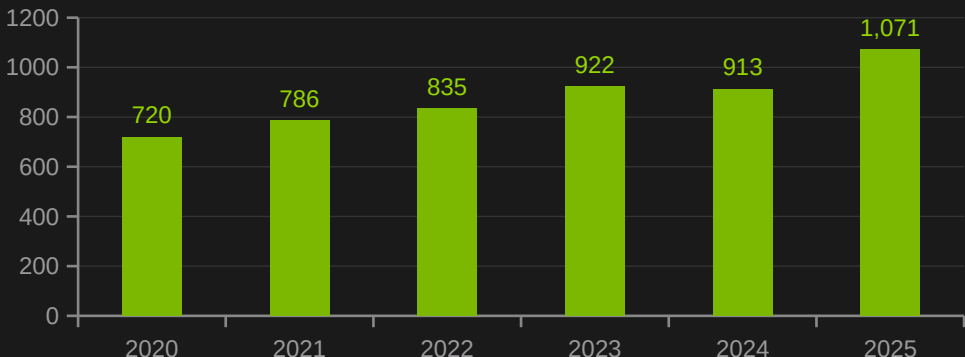

↑ +18% YoY

99.3%

Fill Rate

↑ Consistent

Revenue Trend (\$K)

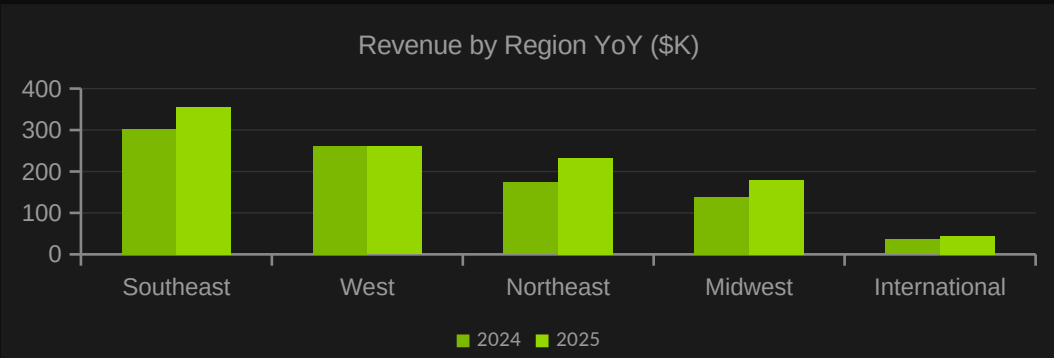

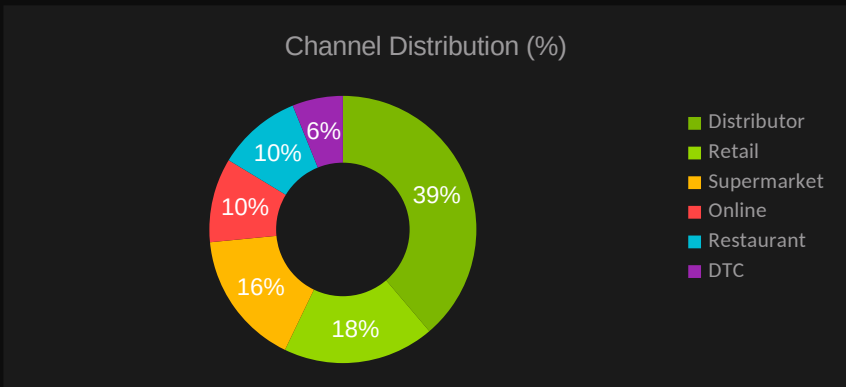

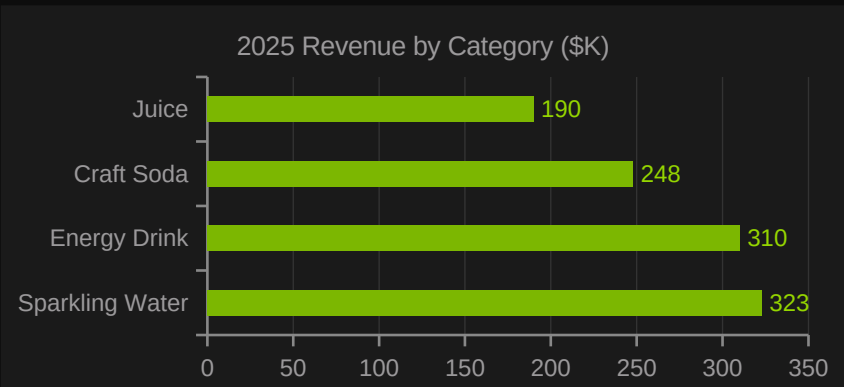

BUSINESS HEALTH SUMMARY

Revenue Growth	Strong
Profit Margins	Improving
Quality & Compliance	Excellent
Supply Chain	Good
Marketing ROI	Stable
ESG Progress	On Track

02 SALES PERFORMANCE

Revenue by Category, Channel & Regional Distribution

TOP PRODUCTS (Cumulative)

NRG Blast Original	\$627K
FizzCo Classic Cola 500ml	\$597K
NRG Blast Zero	\$506K
Harvest Berry Juice	\$505K
Harvest Mango Juice	\$488K

03 INVENTORY & SUPPLY CHAIN

SUPPLY CHAIN INSIGHTS

Raw Materials: 4.2/5.0 reliability, 17-day lead time

Packaging: 3.9/5.0 reliability - needs improvement

Late Deliveries: 15% rate (target <10%)

Quality Rejections: 0.5/quarter average - minimal

Procurement Cost: \$4.2M annually (+16% since 2020)

04 PRODUCTION & QUALITY

Efficiency, Yield Rates, Compliance & Quality Control Across Plants

Quality Trend (Pass Rate vs Defect Rate)

COMPLIANCE SNAPSHOT

Quality Pass Rate	↑ 99.1%
FDA Violations (2025)	↓ 2
Recalls (2025)	↓ 1
Labeling Issues	↓ 3
Units Inspected (2025)	↑ 1.4M
Recall Units	↓ 28

05 MARKETING ROI

Campaign Effectiveness, Conversion Analytics & Spend Efficiency

2.6x

Marketing ROI

\$2.85

Rev per Mkt \$

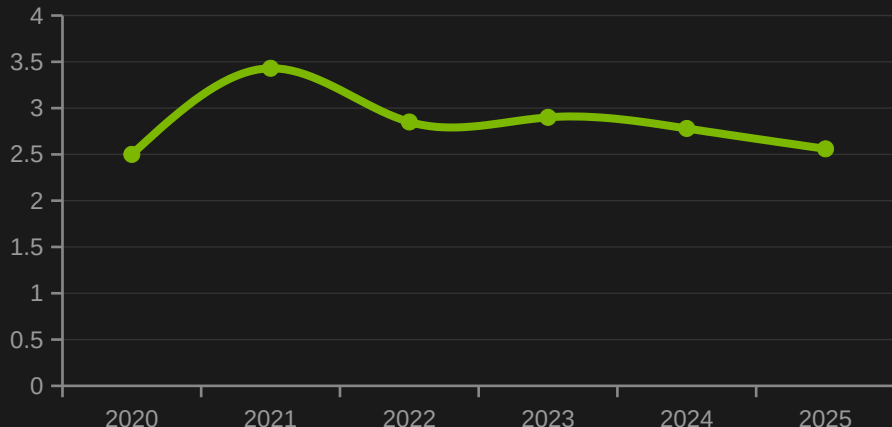

9.4%

Mkt Spend / Revenue

102K

2025 Conversions

Marketing ROI Trend (x)

KEY INSIGHTS

Peak ROI in 2021 at 3.43x driven by efficient spend during recovery

Current 2.56x ROI is sustainable with larger marketing investment

EBITDA margins stable at 29% despite 16% increase in marketing spend

Conversion efficiency strong: 102K conversions in 2025 (+12% YoY)

Revenue per marketing dollar at \$2.85 exceeds industry benchmark of \$2.20

06 ESG & SUSTAINABILITY

Carbon Reduction, Renewable Energy, Eco-Packaging & Waste Management

-25%

Carbon Reduction
vs 2020 Baseline

26%

Renewable Energy
(up from 9%)

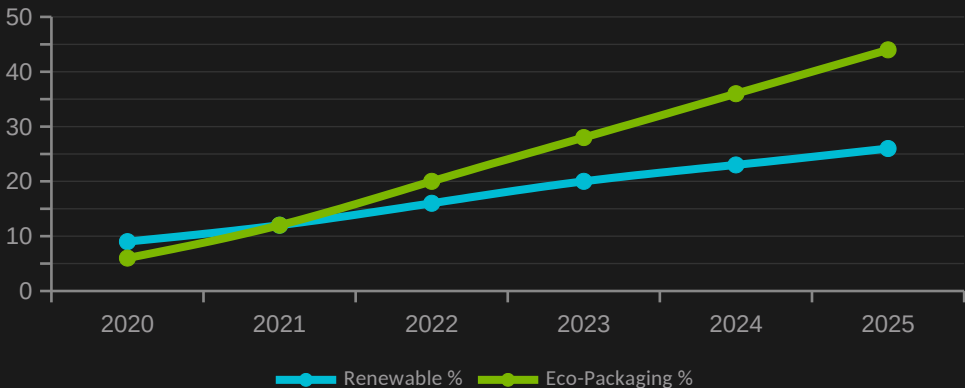

44%

Eco-Packaging
Adoption

Bottles Recycled
Annually

Sustainability Progress (%)

2026 TARGETS

Carbon Neutral Operations	2028	On Track
50% Renewable Energy	2027	Ahead
60% Eco-Packaging	2026	On Track
Zero Waste to Landfill	2030	Planning
Water Usage -30%	2027	In Progress

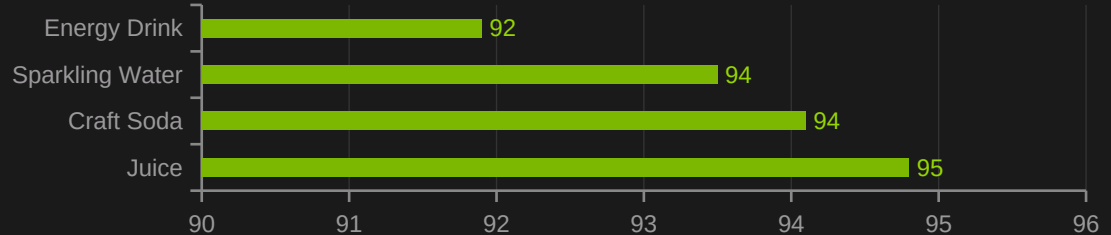

07 FORECAST ACCURACY

Demand Planning Precision by Category & Region

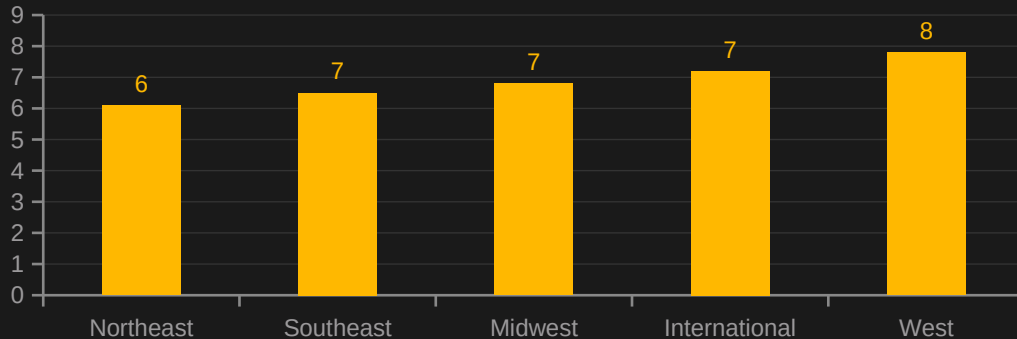

93.2%

Overall Forecast Accuracy
(100% - MAPE)

Forecast Accuracy by Category

MAPE by Region (Lower is Better)

FORECAST INSIGHTS

Juice and Craft Soda are most predictable categories

Energy Drink volatility drives higher MAPE (8.1%)

West region seasonal patterns need refined models

Northeast forecasting is best-in-class at 93.9%

08 STRATEGIC RECOMMENDATIONS

Data-Driven Priorities for Next Quarter

GROWTH OPPORTUNITIES

1 Scale Production

Only 48-50% capacity utilized across 3 plants — room for 2x output without new facilities

2 Expand Energy Drink

Fastest-growing category (+190% since 2021) with highest revenue per unit

3 Accelerate Eco-Packaging

Currently at 44% — target 60% by 2026 to meet ESG goals and consumer demand

4 Leverage Marketing Efficiency

ROI of 2.6x at \$2.85/\$ spent exceeds industry — increase investment in proven channels

RISK MITIGATION

1 Reduce Late Deliveries

15% late rate impacting fill rates — renegotiate SLAs, add backup suppliers

2 Improve West Region Forecasting

7.8% MAPE is highest — implement seasonal demand models

3 Address Packaging Supplier Risk

3.9/5.0 reliability — diversify supplier base, reduce concentration

4 Monitor Discount Creep

Discount as % of revenue trending up — implement pricing governance

THANK YOU
